Sir:

PRELIMINARY AMENDMENT

Prior to the examination of the above application, please amend this application as follows:

IN THE CLAIMS:

Please cancel claim 1, and add new claims 18-44, as follows:

18. (New) A method of treating an in situ heart valve, the method comprising:
providing a first elongate member having a first end and a second end and an anchor assembly at each of the first and second ends;
anchoring the anchor assembly at the first end proximate the heart valve such that at least a portion of the first elongate member between the first end and the second end extends within a chamber of the heart; and
anchoring the anchor assembly at the second end to a portion of the heart spaced from the anchor assembly at the first end,
